

AUTOMOTIVE

Experience gained from five years of direct employment within the Australian automotive component sector includes:

- Employee Relations
- Human Resources Management
- Industrial Relations
- Occupational Health, Safety and Welfare (OHSW) management
- The development and delivery of training to employees, engineers and managers
- Workers' Rehabilitation and Compensation management within the South Australian WorkCover Exempt system.

Additionally, consultancy work has involved the provision of auditing, OHSW and quality assurance services to:

- Century Products
- Exide Batteries
- Heavy Automatics
- J.V Crash.

As a registered competency assessor and trainer (#4635) with Manufacturing Skills Australia, Manufacturing and Engineering Assessment System (MEAS), Scaled Management Systems can assist clients in the automotive sector with employee development aligned with the Metal and Engineering National Competency Standards.

For additional information regarding the National Metal and Engineering Industry Competency Standards please refer to www.mersitab.com.au
