

GOVERNMENT

Experience gained from consultancy roles to a variety of government sectors provides the knowledge and skill base underpinning the services developed and offered by Scaled Management Systems for this unique sector.

At federal, local and state government levels, Scaled Management Systems understands the importance of managing the complex interactions between different:

- Community groups and their needs
- Service types, their hazards and risks and
- The resourcing of these services.

Client portfolios have included:

- Federal Government: From 2005 to 2006 commissioned the SA Government, Department for Families & Communities (DFC) to review the national auditing standards for the community services sector. Scaled Management Systems recommended consolidation / integration of national auditing standards to provide a consistent framework for continual improvement within the community services sector.
- Regional (Eyre, Yorke Peninsulas; Mid & Upper North) and metropolitan councils.
- City of West Torrens, South Australia: OHSW audit against AS/NZS4801:2001.
