

LEGISLATIVE UPDATE – RETURN TO WORK GUIDANCE

WorkSafe Victoria has released new guidance to assist employers and injured workers with the return to work process. The new publications will help employers and injured workers understand their obligations and the steps needed to get workers back to safe and sustainable work and that they regularly communicate with the injured worker and their doctors throughout the rehabilitation and return to work process.

Similarly, injured workers must make every reasonable effort to return to work in suitable employment and participate in assessments to determine their capacity for work, rehabilitation progress, and future employment prospects.

The new material was developed to help employers and injured workers understand what they need to do and where to get further help if needed.

To order a copy go to www.worksafe.vic.gov.au or call WorkSafe's Advisory Service on 1800 136 089.
